

## FOREST FIRES GAIN IN FURY IN OREGON ZONE ASHLAND ENDANGERED

Idaho and Montana Situations Are Improved—California Mining Town Is Being Menaced

MEDFORD, Ore., Aug. 24.—A sudden high wind arose in the fire district in Southern Oregon at noon today, and the fires are doubling their fury. Ranger Gubbell sent an urgent call into Ashland for more men. It is believed if the wind does not die soon, the city will be endangered. Fires all over Southern Oregon are said to have regained their fury.

### FIRE SITUATION BETTERED BY SUBSIDING WINDS

LEWISTON, Idaho, Aug. 24.—A slight change for the better in the forest fire situation in the Clearwater district, in Northwestern Idaho, has taken place. Last night the winds subsided and hundreds of fire fighters, taking advantage of the calm, did much towards checking the conflagration. Today the wind again arose, but not so high. Several fire crews reported narrow escapes from incineration.

### Medford Endangered

MEDFORD, Ore., Aug. 24.—A high wind arose at noon and Ashland is now endangered. Rangers have been sent into town for more men to fight the flames.

### Light Rains Fall in Idaho

SPOKANE, Aug. 24.—Light rains during the night, with slight indication of more rain today in Idaho and Montana, did much to restore the exhausted fire fighters. While nothing short of a heavy downpour can quench the fires, last night's showers improved the situation.

### Fire Advances on Magalia

CHICO, Aug. 24.—Burning swiftly up the bushy canyons of the north fork of Feather river, a forest fire is rapidly advancing on the mining town of Magalia on the Sterling City railroad. Several cabins and nine buildings have been destroyed. The main part of the town is directly in the path of the fire and a strong wind is sweeping flames toward the structures. Every available man in the mountain section from Paradise Valley to the Diamond Match Company's mills at Sterling City is fighting.

One unidentified man who is lying at the point of death as a result of burns while fighting fire, was caught in a dry gully up which the flames ran. The Diamond Match Co. is sending relief trains toward Magalia from Durham. It is feared the railroad will be cut off as all wire communication already has been. The entire mountain region is smoke enveloped.

### CENTRAL MONTANA HAS

### SLIGHT FALLING OF RAIN

HELENA, Mont., Aug. 24.—With a slight rain falling over the valley the forest fires situation in Central Montana is much improved. Should the downpour continue a few hours the biggest fires will be extinguished. It is believed conditions will soon become normal.

### DEPARTMENT ORDERS 50

### EXPERIENCED MEN TO FRONT

WASHINGTON, Aug. 24.—Associate Forester Potter today ordered fifty experienced men to proceed from Ogden, Utah, to the forest fire front in Montana. This will relieve the inexperienced fighters.

## ROOSEVELT OPENS FIRE ON SHERMAN IN NEW YORK WAR

Makes Speech in Opposition to Vice President in Latter's Home County

'You Will Notice My Utterances Are Free from Ambiguity,' Snaps T. R.

UTICA, N. Y., Aug. 24.—Theodore Roosevelt wound up the first day of pilgrimage into the west by placing himself directly in opposition to Vice President Sherman.

Speaking yesterday in the vice president's own county, he warmly endorsed State Senator Frederick Davenport, who is a staunch progressive, and whom Mr. Sherman has said that he would not support.

Colonel Roosevelt spied Senator Davenport at once, and he greeted him warmly. As soon as he began his speech he turned to the senator and said:

"I am glad to see you on the platform, Senator Davenport. The only kind of a platform I care for is the kind of politics in which decency is combined with efficiency. I hold that the only way in which a politician can really serve his party is by helping that party efficiently to serve the people. Because the senator and the men who have acted with him have stood for this principle, I am glad to be on the platform with him."

## RECOUNT ASKED FOR IN NEBRASKA

Feeling Bitter—Both Shallenberger and Dahlman Demand the Recount

OMAHA, Neb., Aug. 23.—Governor Shallenberger, the defeated Democratic candidate for the nomination of governor, yesterday filed a request for a recount of the ballots in twelve counties, claiming that a recount will show that he has a majority over Dahlman of Omaha.

Last night Dahlman announced that he would demand a recount of the entire state. Feeling between the Shallenberger and Dahlman followers is so acute that Shallenberger's action will deprive the Democrats of every chance of success in the election.

## LAWLER INSPECTS IMPERIAL VALLEY

Will Make Report to Taft As to Best Way to Spend Relief Fund of \$1,000,000

LOS ANGELES, Aug. 23.—As special envoy of President Taft, Oscar Lawler, assistant attorney general of the United States, acting for the department of the interior, has finished a complete tour of inspection and investigation of the water crisis in the Imperial Valley. Mr. Lawler's report to the president will deal with the most feasible way of expending the \$1,000,000 relief fund appropriated by congress during the last day of the session recently closed, as a result of the emergency message filed by the president, and in whose hands the disbursing of the fund has been placed.

## TAFT ISSUES AN OPINION ON TARIFF REVISION

Agrees With Insurgent Idea That Schedules Should be Isolated

## THUS PREVENTING THE REVISION OF WHOLE LAW

President's Letter to Griscom Is Not Discussed by Vice President Sherman

BEVERLY, Mass., Aug. 24.—President Taft advocates revision of the tariff by separate schedule in the letter that he has written for the Republican congressional campaign book.

Summing up the work of the tariff board the president tells Chairman McKinley that whenever his tariff investigators report to him facts which in his judgment warrant a revision of any particular schedule he will recommend such a revision in a message to congress which will embody the facts brought to his attention.

Meets Progressive's Wishes In taking this stand the president is going more than half way to meet the progressives, who have charged that the method followed at the special session makes a fair and impartial revision impossible.

No new developments over Taft's letter to Griscom developed yesterday.

## SHERMAN WILL NOT TALK

UTICA, N. Y., Aug. 24.—Vice President Sherman refused to discuss President Taft's letter to Lloyd Griscom, which is regarded as a repudiation of Sherman's political tactics.

## ROOSEVELT'S GAGE OF WAR TO THE OLD GUARD

Ready to Fight for the Principles at Convention—Declares He Likes Fights

## HERKIMER, N. Y., Aug. 24.—Col.

Roosevelt today issued a declaration of war to the "old guard" in the New York Republican party. Roosevelt's attention was called to a statement by William Barnes, the leader of the regulars, that he and his associates would welcome a fight at the Saratoga convention. Roosevelt replied: "If they want a fight, all right. I like fights. As long as it is going to be a fight, I expect they'll get what they want. I am going to the Saratoga convention only because I feel that public interest demands it."

Continuing, he said: "I am going to make a speech at the convention such as I had originally planned. While I hope there will be enough good, honest delegates there to prevent the overthrow of the principles for which I stand, yet if a certain element feels it is their duty to oppose them, then it is their affair. As far as I am concerned, the issue will be clear-cut."

Roosevelt indicated that he intended to fight even if a majority of the delegates opposed his ideas.

Baker Block Damaged to Extent of \$35,000 by Fire From Explosion

LOS ANGELES, Aug. 24.—A fire caused by exploding chemicals in the basement of the Baker block, No. 342 North Main street, damaged the building to the extent of \$35,000. Other nearby buildings were threatened before the blaze was finally controlled.

## STEPHENS AND TYRRELL MAY LEAD RIVAL FORCES

LOS ANGELES, Aug. 24.—The choice of the Lincoln-Roosevelt League for temporary chairman of the Republican county convention on next Saturday is W. D. Stephens, while the "regulars" will probably try to elect Frank G. Tyrrell for that position. Stephens is not a delegate to the convention, but the Leaguers believe that, as the primary election law is silent on that point, they can choose whom they please.

## NEW COURSES DECIDED ON FOR CITY SCHOOLS

Agriculture and Bookkeeping Will be Introduced Into Grammar Grades

## FIRST ASSISTANT NAMED FOR COMMERCIAL SCHOOL

Modern Furnishings to be Installed in New High School Building

The Board of Education last night transacted considerable important business, among other things deciding on new courses to be introduced in the grammar grades of the city schools at the beginning of this school year, the election of a first assistant for the commercial high school and the furnishing of the commercial building.

The new courses decided upon were eminently practical ones, being those of agriculture and bookkeeping. By introducing these courses the Board of Education is putting itself in the forefront of modern progress. Especially is the agricultural course a commendable advance that ranges Santa Ana schools with the up-to-date and progressive schools elsewhere. The bookkeeping course will recommend itself to many who cannot enter high school, as well as to others.

The appointment of W. L. Hughes as first assistant in the new commercial high school followed the receipt of splendid recommendations both as to general education and practical experience.

The board, in considering the matter of furnishing the new commercial building, decided to install modern equipment and furnishings. Matters will be pushed rapidly along so as to be in readiness for the opening of school on September 26.

Cudahy and Mrs. Cudahy met the children at the station.

The divorced woman refused to discuss her divorce. "Go on the stage? Never!" said Mrs. Cudahy. "I have lost all interest in society, clubs, everything. The rest of my life will be devoted to my children, for when I am not with them personally I will be in thought. Please deny that I am going on the stage. I am not a freak nor a curiosity and I don't like to be stared at."

# WHO WILL CONTROL NEXT LEGISLATURE?

Table Compiled by the "Register" Showing Nominees in Most of Districts  
—Analysis of the Situation

The question of control of the next state legislature is now receiving the careful consideration of the politicians as well as of the men at the head of the Lincoln-Roosevelt movement. Claims are being made by all sides that "they" will have control of the legislature. From the returns of the recent primary election at present available, the Register has compiled the following list of legislative nominees, both Republican and Democratic. This list is almost complete. Where vacancies appear in the list no nominations have been made. This list also presents the names and political affiliations of the holdover state senators. All members of the Assembly are elected every two years; half the total number of sen-

ators are elected every two years, so that one-half hold over for two years, the term of a senator being four years, and that of assemblyman two years.

There are seventeen holdover senators who are Republicans, and three who are Democrats. Ten of the hold-over Republicans are Lincoln-Roosevelt supporters, as indicated in the list.

Of the eighty Republican nominees for the Assembly—the total number of Assembly districts in California being eighty—thirty-six are out-and-out Lincoln-Roosevelt supporters. In most cases these candidates have been named in districts that are conceded to be solidly Republican. In several cases these Lincoln-Roosevelt candidates have also been nominated

### A WORD OF WARNING

The Register has just a word of warning for the Republicans of this county.

To prevent the defeat of several of our county candidates at the November election ALL Republicans must get together.

It may just as well be admitted first as last that a whole lot of Democrats voted for the successful candidates at the primary election—some for one reason, some for another. But these same Democrats will be found putting up a stiff fight for their own party nominees at the November election.

The effect of this vote on the state ticket will be felt too.

There is just one sensible thing for Republicans to do, and that is to get together—AND DO IT NOW.

There is everything to be gained and nothing to lose by such a course. That it would be for the interests of the party all will agree, and what is for the best interests of the party cannot fail to be for the best interests of the party's candidates.

As to the personal and individual interests of the candidates, all have a common stake in the success of the whole ticket. Anything in the way of knifing is sure to be met by reprisal and the logical effect of such tactics would be to defeat both combatants. On the other hand friendly reciprocity between candidates and their respective friends is bound to strengthen both sides and the whole ticket.

Get together!

### THE FOREST FIRES

What a tragedy is now sweeping over the northwest! Fancy a billowy fire line fifty miles long careering across the country, devouring prosperous towns and communities, carrying millions in forest skyward, and leaving behind in its blackened wake the charred remains of scores of men, women and children. What a visitation and what an awe-inspiring spectacle it must be! And it is strange, too, that it waits through years until the time comes and then persists with an unreasonable obstinacy.

A forest may remain a veritable tinder box for a decade with no serious outbreak. Then all at once fires seem to break out spontaneously and there is no heading them off. Not being looked for, towns have failed to provide against them and are swept off the map in a day or night. No one is prepared, and the fire comes upon them "like a thief in the night."

The dispatches to the Register tell of families being aroused from their beds by rescuers just in time for them to seek safety. It certainly gives great emphasis to the old saying that fire "is a good servant but a bad master." As heretofore suggested by the Register, however, there is some consolation in the fact that it is a purifier and may save the people of the afflicted districts from something worse. Just now there is in Russia and Italy an enemy more to be dreaded than fire—cholera.

## Direct Primary Is Not Very Expensive

FRESNO REPUBLICAN.

The statement of Senator-elect in fact, was in inverse proportion to the money spent. Works that his campaign cost him less than \$1000, puts the lie to all the estimates that only a millionaire could run for the United States Senate, under the direct primary law. Senator Flint had estimated the cost as at least \$80,000. Instead, the victorious candidate spent less than \$1000. To be sure, he was backed by the Lincoln-Roosevelt League, but the league spent no money separately for him, independently of the general ticket, and the extra expense caused by his candidacy was very little. Even if the expenses of the League had been borne by the candidates instead of being contributed by public-spirited citizens, Judge Works' share would have been no huge sum, and would have been nothing like the sums usually expended under the old system.

One of the other candidates was a millionaire, but he openly spent only \$7500. There are rumors of vastly larger sums spent from some sources, but we do not know what evidence of their truth could be produced. The other candidate, E. A. Meserve, who made a purely personal campaign, with no organization sustaining him, evidently spent no more than a fairly well-to-do man could afford, and he received nearly as many votes as his millionaire competitor. The vote, however, was far too complicated, too expensive and too cumbersome, and it must be simplified. But it costs nothing like what its opponents predicted. For instance, Alexander Gordon, running for Railroad Commissioner, in a district comprising twenty-two counties, and for an office requiring more primary red-tape than that of governor, canvassed the whole district for \$900, and was triumphantly elected by 3000 majority. Geographically, the district comprises nearly half of California. The whole state could be canvassed the same way for \$2000.

### FUNERAL OF MISS MYRTLE CARTWRIGHT

The funeral of Miss Myrtle Cartwright, the 15-year-old daughter of Mr. and Mrs. R. H. Cartwright, was held yesterday afternoon at the First Congregational church, with services conducted by Rev. Chas. H. Secombe, pastor of the church. The church was well filled, for Myrtle had endeared herself to many people who have been interested in the development of the bright, attractive and talented girl. Lovely flowers and emblems were seen in profusion.

The singing was under direction of Mrs. Ella Fyfe who was assisted by Mrs. Chapman, Messrs. Hickox and Rowland. The quartette selections were "Sometime We'll Meet and Understand," and "Saved by Grace." Mrs. Fyfe sang "Face to Face" as a solo. The entire service was most touching.

The pall bearers were young friends of the deceased girl and included Elwell Squires, Ernest Dresser, Orrin Daniels, Ray Osborne, Harry Wollaston and John Ball.

No Motors in Prince Edward Island. Consul Frank Deedmeier, Charlottetown, reports that the Legislature of the Province of Prince Edward Island, Canada, by a unanimous vote, has refused to repeal the law making it a criminal offense, punishable by a high fine, to run an automobile or any other motor vehicle on any of the public highways of the province. There are no street cars. At a former session of the legislature an organization of American capitalists asked for a charter to operate electric street cars on the island. The legislature insisted upon a charter provision to the effect that no cars should be run on Sunday. The Americans refused to accept this amendment. A narrow gauge railroad is operated in the province. In all other respects travel remains as it was before the use of steam power.

### LIGHTNING PLAYS CURIOUS PRANKS

Severest Electrical Storm in History of Los Angeles Yesterday

LOS ANGELES, Aug. 24.—A freak electrical storm, the severest in the history of Southern California, descended upon Los Angeles and vicinity yesterday afternoon, causing much damage by lightning and tying up the street car services more than twenty minutes. Six hundred cars were stalled for periods of varying lengths.

Unheralded and unexpected, the thunderstorm swept down through the mountain range, probably from the vicinity of Riverside, according to the calculations of United States Forecaster Wollaber. It found a sudden outlet across the broad valley leading to the ocean, and over Los Angeles it raged as it swept onward, the lightning playing vividly, the crash of the thunder sounding strange to the ears of the people of Southern California, and developing into splitting roars as the bolts struck. Then came the mid-summer shower.

This sort of performance on the part of the weather is wholly strange and unusual in Southern California. Only seven times in the past thirty-three years have thunder storms been registered in Los Angeles during the month of August, and never before have they been accompanied by an electrical display similar to that of yesterday.

The electrical storm extended to outside points, including Long Beach, where the generator building of the Pacific Electric was set on fire by the lightning. A bunk house on the ranch of C. N. Crockett was struck and fired. A giant gum tree was splintered by lightning. The Slauson and Strawberry Park electric substations both suffered. Workmen were stunned at Independence and Vermont avenues. Telephone lines along the electric lines put out of commission were also out of use. It is believed the damage from the storm to the electric companies will be not less than \$10,000.

## WIDTH TO BE EQUALIZED

French Street, from Washington to Seventeenth, to be Fifty-five Feet

Street Superintendent Ward and Senator John N. Anderson, who were appointed by the City Trustees a committee to secure a uniform width for French street, have practically arranged that the street shall be a uniform width of fifty-five feet from Washington avenue to Seventeenth street. It was the desire of those interested that the street should be made sixty feet for its entire width, but this was found to be impracticable for several reasons.

At present the street is in some points fifty feet wide, in others fifty-five and in others sixty. In order to widen the street to a fifty-five foot limit it will be necessary to purchase a right of way along certain properties on the west side of the street. On the other hand, the city will deed back to property owners on the east side a five-foot strip of land and these property owners have agreed to contribute toward the purchase of the property on the other side. It is probable that the committee's recommendation will be approved by the trustees at their meeting next Monday evening.

**Society****Jolly Evening**

The Intermediate Christian Endeavor Society of the First Baptist church met last evening at the home of S. H. C. Rimer, with Miss Grace Rimer, superintendent, as hostess.

The event was most enjoyable, being an out-of-door affair. A big bonfire crackled cheerfully as it sent its dancing flames skyward. Japanese lanterns diffused mild radiance as the young people indulged in merry out-door games. The festivities culminated on the big north lawn where "weenies" were roasted, marshmallows toasted and watermelons dissected for refreshments.

to Huntington Beach, where they participated in the pleasures of the Veterans' Encampment. Miss Huntington Hossler was a guest of the club.

**Inter Se**

Miss Celia Cotter was hostess to the Inter Se's yesterday afternoon. The usual pleasurable time was had in sewing and conversation. At the close of the afternoon dainty, delicious refreshments were served.

When the hour for departure arrived the girls were the guests of Miss Lida Crookshank in her auto for a short but much enjoyed ride.

Those present to enjoy Miss Cotter's hospitality and the auto ride were Mesdames A. J. Crookshank, George Smith, W. H. Bullard, Misses Lida Crookshank, Margaret Ore, and Jessie Flook.

**Celebrated Birthday at Avalon**

Mrs. B. F. Beswick writes so entertainingly from Avalon, in a personal letter under date of Aug. 22, that the editor of this department takes the privilege of using most of her letter verbatim. Mrs. Beswick tells first of a jolly party for her daughter, Katherine, later of the pleasant time they are having at their summer home:

"Presuming that 'society' news is rather scarce at this time of the year, I thought you might like to know how our Katherine celebrated her birthday here today. Well, nine little girls, mostly residents of the island, came to help her. They were all good players and part of the time I didn't know but the house was coming down. They had a peanut hunt, pulled taffy, and later did ample justice to the birthday cake with its nine pink candles. These little new friends surprised her by bringing her a number of pretty little gifts.

"We are thoroughly enjoying our cabin over here. It almost begins to feel like home to us. Frank left us last Wednesday to begin his camping, and my daddy—Mr. Wertz—came over Friday. We shall probably stay a couple of weeks yet.

"We see a familiar face here occasionally. Saturday I met Mr. and Mrs. Frank Rogers. They were over for a week, leaving this afternoon. She told me that Mr. and Mrs. Robinson are here. He works at Parsons & McNaught's.

"I wish you might enjoy a few days with us on this magic isle."

**Matrons Met**

Mrs. Theo. Winbiger was hostess yesterday afternoon to the members of the Past Matrons' Club, O.E.S., at which Mrs. Rupp of San Diego, was the guest of honor.

the clouds of yesterday afternoon. Cooling refreshments were served in the house at a later hour.

**Return of an Old Timer**

Their many friends are happy to note the return to Santa Ana of old timers, who came to this city about thirty-five years ago, J. R. Conlee and family.

It was in 1875 when Santa Ana was struggling for a place as a town on the map of Los Angeles county, that a number of immigrants landed fresh from the prairies of Nebraska. Among them were P. W. Straw and family, and son-in-law J. R. Conlee.

For several years Mr. Straw and Mr. Conlee followed architecture and building, and many of the old residences of this city and valley are the handiwork of these old-time builders.

In 1881 Mr. Conlee took a position with John R. Paul, the pioneer furniture dealer of Santa Ana.

In 1883 Mr. Conlee formed a co-partnership with D. C. Lyon of New Haven, Conn., and opened up a furniture and undertaking business on the corner of Fourth and Bush street, where he remained until 1885, when, in company with Mr. H. N. Short, still a resident of this city, went to Covina and founded the "Covina Independent" as a "boom paper" in the interest of the J. S. Phillips tract.

After nearly four years among the orange groves of Covina, Mr. Conlee moved his paper and family to the city of Los Angeles, where he has made his home until last week, when he moved his family, now consisting of his wife and daughter Florence, back to this city, domiciling for the present at 1410 West Third street, where they will keep open house to their old-time friends.

Mrs. Conlee is the eldest daughter of the late Mr. and Mrs. P. W. Straw of Trabuco, and a sister of H. D. Straw of Santa Ana, and Geo. U. Straw and Mrs. A. B. Joplin of Trabuco.

Mrs. Joplin and her daughter Vera will soon come in from the mountain ranch and live with Mrs. Conlee, so as to give her daughter better educational advantages.

Mr. and Mrs. Conlee expect to make Santa Ana their home.

Of the Dragon's own manufacture, the cherry chocolates are a delicious confection worthy of the establishment and the "window" displaying the toothsome delicacies is appropriately decked with cherry-designed paper and two cute cherry trees that alone would designate the spot as the "cherry window."

**The Novelty Bags**

The prettiest, niftiest shopping and money bags that the season has bestowed upon the fair sex are the new linen conceals, already mounted and stamped for working.

Merigold Brothers are showing these cool looking summer bags in several different styles, some already worked, while others await the skill of fair, feminine hands. The linen bags are a rage in the east, the ladies finding them to be just the thing to carry with summer gowns. Reasonable in price and dainty in appearance, the new bags are already likely to become at once popular with Santa Ana ladies.

While not so novel, the linen covers for sofa cushions are most attractive. These are shown by the Merigolds with the new shopping bags.

## Notes On My European Trip

(By C. A. Gustlin)

### ARTICLE I—ACROSS THE CONTINENT

A number of my friends have requested me to give a resume of my experiences abroad, which, I am indeed pleased to do. It will not be an easy thing, however, to confine myself to a very limited space, even though I touch only on the most important features of my trip. If I were able to make this relation of my various experiences one-tenth as interesting or instructive as they were in reality, I should be content with the effort.

I trust that various ideas and conclusions that I shall set forth here may not subject me to the too harsh criticism of those who, cherishing the

old dream of European supremacy in all things, whose golden text is "made in Germany," may at first consider me strongly prejudiced. Many of these have enjoyed European trips and have viewed conditions in a superficial way. Those, however, who have had the advantage of longer residence there, will be able to judge very differently. But to begin with my trip and hastily skip over my two months of travel in the United States before sailing from New York.

My first stop was made at the Grand Canyon; this was surely taking a very big first bite. If nature has a greater scenic masterpiece on this mundane sphere, I have never seen nor heard of it. The magnificence, the grandeur, the wonderfulness of this mighty chasm is too great to be expressed in mere words. One is seized by an insatiable longing to remain there forever; not that the mind feels that it can ever grasp

its stupendousness but that the soul senses an affinity with its awful magnitude, its eternal silence, its wondrous beauty. That we of Southern California live so near to this marvel of nature, constitutes one of the many privileges of which we avail ourselves too little.

From the Grand Canyon I went to Colorado Springs. In and around this beautiful city I enjoyed many charming drives and sights. Among them the Garden of the Gods, Manitou, the Cheyenne canyons, Pike's Peak, etc. Through the courtesy of Mr. Hull, of our city, but formerly of Colorado Springs, and the former owner of one of the Cheyenne canyons, I was very kindly shown special attention at this place.

My next stop was Boone, Iowa, my birth place and home for many years previous to my coming to California. Here I was most heartily received by relatives and friends, and thoroughly enjoyed being again among childhood scenes and companions. The weather man, however, did not celebrate my home-coming in his best style, for during nearly my whole stay, terrific storms were the order of the day and night. Never have I witnessed so frightful a thunderstorm, with all its accompaniments of lightning, torrents and hail, as greeted me the night I arrived. The reader may be sure that I thought well of our own charming freedom from such tempestuous demonstrations, as I have also had occasion to many times since.

From Boone I went south to Prairie City, Des Moines, Highland, Ill., and St. Louis, where I visited relatives and friends. I was the delightfully

### A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

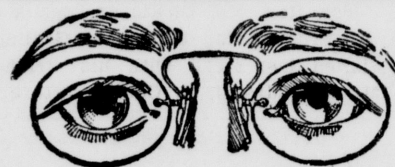

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe obstinate, hacking coughs, chronic bronchitis, and chronic catarrhs of the throat and lungs. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon a feeble, disordered stomach, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation of glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

entertained guest of Honorable J. P. Streuber and family, while in Highland. They are known to many in Santa Ana as relatives of the Dietz and Wehrly families here. While in St. Louis I had an especially interesting visit with my old teacher and friend, Professor E. L. Coburn, who is at the head of the music department in the St. Louis schools. During my school days in Boone I had the pleasure and privilege of close association with him while he had charge of the musical work there. His exceptional efficiency in this line has meant many advances since. He is a close friend and colleague of the great W. L. Tomlins of Chicago, to whom all Americans are greatly indebted for the present high standing of music in the schools of this country.

While in St. Louis I had the pleasure of meeting Mr. C. H. Seybt, a man who has had time in his busy commercial life to enjoy and patronize the arts. Through his kindness I learned to know his two sisters, one of whom lives in Charlottenburg, a suburb of Berlin, and the other at Rolands Eck on the Rhine. To these splendidly gifted and cultured women I owe more than I can say for the pleasure and profit of my trip abroad. Both are accomplished linguists, and have spent their entire lives in the study of languages, literature, history and art.

Returning from St. Louis to Boone, I resumed my trip eastward, making minor stops between there and Chicago, where I again had many pleasant visits. Here my former teacher, Marie Sayles Bibbs, resided; through her I met a number of prominent Chicago musicians. The recent death of Miss Bibbs was not only deeply lamented by her pupils and friends, but by the entire Middle West, to which her name stood for an artist of the rarest ability.

From Chicago I went to Grand Rapids, where I was charmingly entertained by Senator and Mrs. William Alden Smith, well known in this city. I was shown the sights of the great furniture city, and met a number of its people. Having intended to visit Washington, D. C., before sailing, Senator Smith very kindly provided me with letters of introduction to various prominent people there, including President Roosevelt. Unfortunately, however, on account of the lack of time, I was unable to visit the national capital. Some letters to our consul and ambassador at Berlin proved useful, however.

Niagara Falls was my next point. Here I was met by my good friend, C. J. Woodford, who is well known to many here. We enjoyed the lovely sights of this place together, and then proceeded to Knowlesville, N. Y., his home. Here I rested for nearly two weeks, enjoyed many beautiful auto rides around that charming section, gave a large recital in the Presbyterian church there, besides an evening musical in a private home in Medina, and then departed with a big, warm spot for all the people in that part of "Way Down East," who had made my stay such a delightful one.

My next stop-overs were in Rochester, Troy, Albany, Saratoga Springs, Warrensburg, my mother's old home, Walpole, New Hampshire, Chesterfield and Boston, Mass. In all these places I had most enjoyable and interesting visits. In Boston I particularly enjoyed visiting places of so important historical interest. I believe it is a most unfeeling person who can, on a place like Bunker Hill, review with his mind's eye the momentous scenes enacted there, and not become a more patriotic, loyal American.

From Boston I went directly to New York, where I was met by Mr. Woodford. We spent the two days previous to our sailing in sight-seeing and calling on friends. I met a number of New York's principal music teachers, through whose kindness also I met several European artists of note. I shall never forget how the tremendous rush and whirl of New York impressed me. I thought I had seen cities before, but this one fairly carried me off my feet and overwhelmed me. Everything one sees is either the biggest or the fastest in the world. Passing through a few weeks ago, however, I saw New York in Sunday repose, and gathered in my short stay a much clearer and more favorable impression of the place. Personally, I have no great love for cities nor for city life; all conditions are too unnatural. Give me the pure air, the sunshine and the freedom of rural life, in a location such as our own Santa Ana enjoys, near enough to a large city to have its advantages and far enough distant to escape its disadvantages.

## THE MASKED WOMAN

By ALICE T. SHERWIN

Copyright, 1910, by American Press Association.

During the protectorate of Oliver Cromwell there appeared in one of the stalls (or shops, as we would call them) in the Royal Exchange, London, a masked woman who sold small articles, such as gloves, laces, neckwear and other goods, called by the Britons haberdashery.

One day the Marquis of Lorienton, who since the defeat of the Cavaliers had kept himself away from London, passed that way. The estates of his father, the Duke of Ethelstone, had been forfeited on account of the family's adherence to King Charles I., and the marquis was in sad straits for a living. He stopped at the stall of the "masked woman," as she was universally known, and entered into conversation with her, pricing such articles as he saw on her counter. Then, with a sigh, he turned away, saying:

"I would fain buy of your goods, mistress, but I am without means."

"Select what you wish, sir, and pay when Charlie comes home."

Now, the term "when Charlie comes home" meant in those days "when Charles, eldest son of the beheaded king and legitimate heir to the throne, is recalled to assume his rights as sovereign of England."

"I see," said the marquis, "that you are a royalist. Mayhap you are, like myself, an impoverished noble."

"I am a royalist, but I am simply the masked woman making an honest living. These gloves would, I think, fit you. Will you let me try them on your hand?"

The marquis permitted her to try the gloves on him, but not with the expectation of buying them. He liked to feel her fingers on his own.

"There," she said when she had finished; "tis a perfect fit. Take them and pay, as I said, 'when Charlie comes home.'"

But the marquis stubbornly refused to accept credit, especially from a commoner, for the woman had said, "I am simply the masked woman," and he went away.

But there was something in the figure, the voice, the carriage of the masked woman that appealed to him in a way he could not account for. Wherever he went the masked woman in fancy went with him. Waking or sleeping, he saw her moving about in her little booth and heard the sweet sounds of her voice.

So it was not long before he again found himself at her counter pretending that he came to look over her goods, though in reality he came to get another glimpse of her.

"What can I sell you this morning?" she said.

"Indeed, Mistress Masked Woman—I know not your name—I am lounging today, and I like to come here to see you sell your wares. I would that I could give you my custom; but, alas, I have none to give. The Round-heads have taken my all."

"Mayhap they have spent it for palm books."

"What they have spent it for I know not, but this I know—it is hard for me, who have always had a sufficiency, to get on with nothing."

"May I sell you the gloves today?"

"Alas, I have no more the where-withal to pay for them than when I was here before."

The masked woman took up the gloves the marquis had tried on the day before and, making them into a packet, handed them to him.

"Would you give a poor woman pleasure?" she asked softly.

"I would not rob a poor woman," he replied, drawing back.

"I ask you to permit me to do you this favor."

There was that in her tone which appealed to him. He took the packet and kissed the hand that gave it.

The marquis was seen no more at the masked woman's stall after that for some time. Then one day he drove up in his carriage and purchased the whole stock of the masked woman. When she congratulated him on coming to his own he told her that a cousin had died and left him a legacy.

When the marquis drove away he did not take the stock with him, though he left the money for it. That was his last visit to the masked woman's stall, for soon after "Charlie came home." There was great rejoicing among the Cavaliers that after the rule of the Puritans the rightful king had returned from France. Then the masked woman disappeared from the exchange.

But the marquis thought of her by day and dreamed of her by night. His estates were restored to him, but he was not satisfied, because he longed for her and knew not where to find her.

One evening he drove to a fete given by the king. The young dowager Duchess of Abergild, whose husband had fallen in the late war, was present and approached the marquis.

"Have you still the gloves?" she asked archly.

The marquis recognized her voice as soon as she spoke. "I have," he replied, "but have never worn them. I hold them too precious to be used."

The duchess, having been cut off from her income during the protectorate, had the choice of emigrating to France and there being supported by the French king or earning her own living. She had chosen the latter alternative.

Before the marquis came into the jadedom he married the masked woman.

# ANAHEIM MAN ON MISSING LIST

Mystery Surrounds the Disappearance of Elmer Goodrich, Contractor

ANAHEIM, Aug. 24.—Elmer L. Goodrich, a contractor, who has resided in Anaheim four years, is missing.

He left here at 5 o'clock Sunday evening, expressing his intention to go to Los Angeles and from there to Bay City that evening. He has a contract at Bay City and wished to be there early Monday morning to commence work. He failed to reach Bay City and no trace of him has been found. He had little money with him, he is not a drinking man and has no domestic troubles to bother him, that his wife or any of his friends know of. He is a member of the Odd Fellows and the Masonic Lodge here and has an excellent reputation. He was married only about six months ago and just completed a cottage for himself and wife. His wife is prostrated. The police of Los Angeles have been notified and every effort is being made to locate him. He is a large man, light complexion, wears a "sandy," or

red mustache; is nearly, if not quite, six feet tall, and weighs about 205 pounds. Justice of the Peace Howard is away on a vacation and expects to be gone about ten days. He and his family are at Bay City.

—Prize Dance

HUNTINGTON BEACH, Aug. 24.—

Camp Beveridge was under petticoat rule yesterday, even the officer of the day being a woman, Mrs. Martha Kiger of Long Beach. She was attired in an officers hat and wore a sword in addition to her own apparel. The famous bean dinner was served at noon to more than 500 veterans and fully 2000 women and children. A table was placed on the platform of the auditorium for the crippled soldiers. The dinner was in charge of Mrs. Mary Dunning of Los Angeles, who made a brief address before the meal was served. Three rousing cheers were given for her, and the veterans joined in singing "The Army Bean." In the afternoon the prize dance occurred at the pavilion, six couples taking part. From these four couples were chosen because of their excellence. They were Mrs. Martha Chapin of Los Angeles, Mrs. Minnie Atherton of Pasadena, Mrs. May E. Barber of Sawtelle and Mrs. M. A. Snyder of Pasadena, and J. C. Leeper of Norwalk, Alex. Petrie of Pasadena, George V. Smith of Santa Ana and W. H. Nash of Los Angeles. The prizes were won by Mrs. Martha Chapin of Los Angeles, aged 65 years, and Alex. Petrie of Pasadena, who has almost reached his seventieth year.

At the conclusion of the prize dance, entries were open to all persons over 70 years of age, eight men and women participating. Mrs. Addie

B. Mitchell of Los Angeles, 80 years old, was presented with a big watermelon as a prize. J. C. Leeper, 71 years, was her partner in the dance. There was a dress parade at 5 o'clock, all participants being clad in burlesque costumes. The entertainment in the Auditorium last night was given by the ladies of the G. A. R., and consisted of music and tableaux.

## GOOD NEWS

Many Santa Ana Readers Have  
Heard It and Profited  
Thereby

—"Good news travels fast," and the thousands of bad back sufferers in Santa Ana are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

S. H. Whithead, 607 W. First street, Santa Ana, Cal., says: "A great many people have called upon me to learn about my experience with Doan's Kidney Pills and at such times I have always recommended this remedy in the highest terms. For several years I was troubled by a weak and painful back. If I did any lifting or over-exerted myself in any way, I suffered from sharp twinges through my loins. I also had much trouble from the kidney secretions. At one time the passages were too frequent, then again just the reverse and the flow was scanty and painful. Doan's Kidney Pills took prompt effect upon my trouble and it was not long after beginning their use that I was entirely relieved. During the past two and a half years, I have had but little trouble from my back or kidneys and I have not felt in need of a kidney medicine."

—The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
